

Scarred for Life?.....Not Anymore!

See below if you've ever been troubled by:

- Scars
- Stretch marks
- Wrinkles
- Unsightly marks of any kind

Dear Friend,

Jill had been embarrassed about the scars and wrinkles on her skin for years. She didn't even like her husband to look at her without clothes.

But then she discovered natural oil that magically helped erase her scars.

Imagine what that would feel like...finally erasing scars that have been too embarrassing to live with. Picture being able to wear those bikinis, shorts, and sleeveless shirts without people staring at your stretch marks or other scars.

Your Skin's Appearance improves on Contact with Bio-Oil

People across the country have been trying Bio-Oil and the results have been amazing.

Here's what a few of them have to say:

"Within days, my stretch marks were almost 90% gone. This is truly amazing!"-Lisa X

"...I am absolutely thrilled with the results I have experienced from Bio-Oil. I am 60 years old, but I now look considerably younger! All the fine lines, crow's feet and wrinkles around my mouth are so much less noticeable! It has worked like a charm for me. How I wish I had known about it earlier!"-Marilyn P.

“In the past, I was really embarrassed about the way my skin looked even in front of my husband! Since using this amazing product, my life’s completely changed”- Jill A.

Bio-Oil is remarkably versatile. Use it on:

- ✓ Scars
- ✓ Stretch marks
- ✓ Pregnancy stretch marks
- ✓ Uneven skin tone
- ✓ Aging skin
- ✓ Dehydrated skin

John L. Knowlton is the Past President of the Society of Cosmetic Chemists of Great Britain and South Africa. He is also the leading cosmetic scientist and co-author of the textbook “The Handbook of Cosmetic Science and Technology”. He states:

“From the anecdotal evidence studied and my personal experience with Bio-Oil there is no doubt that it produces remarkable benefits on the skin. In my 24 years experience as a cosmetic scientist I’ve rarely come across a more impressive skincare product.”

Bio-Oil contains the Breakthrough Ingredient PurCellin Oil

Ducks secrete oil from a gland, which they spread over their feathers during preening enabling water to bead off. This not only allows ducks to stay afloat and swim but also keeps their feathers attractive.

Scientists have been able to formulate this preening gland oil in the laboratory for use in Bio-Oil.

PurCellin Oil dramatically improves the application of Bio-Oil’s other ingredients, permitting easy spread ability and absorption into the targeted skin area.

These Natural Ingredients Help Restore Your Beauty

As powerful as PurCellin Oil is, the manufacturer added several additional natural ingredients to enhance the beneficial effects. These ingredients include:

Calendula Oil: used as a natural antioxidant for centuries. It has the ability to tone and condition the skin, while providing soothing and calming assistance for sensitive skin types.

Lavender Oil: conditions, calms and soothes skin

Rosemary Oil: invigorates as well as conditions skin

Chamomile Oil: helps maintain skin's natural health, clarifying and soothing

Vitamin A: Aids in improving skin's texture, elasticity, and tone

Vitamin E: increases the moisture within the top layer of skin making it more flexible, softer and smoother. One of the most widespread antioxidants in skincare, Vitamin E also enhances the growth and maintenance of healthy skin

All of these ingredients work together to create a powerful solution to your skin problems.

Now available in 16 countries, at very affordable prices
